#### Report summary and status for pending enforcement actions, permit conditions, Division Orders, and amendments:

The Permittee notified the DOGM on December 19, 2006 that water monitoring information for Pond 5 and the UPDES outfall designated as CV-1W for the months of October and November 2006 was in the pipeline and acceptable for uploading to the Division database. Thus, the Permittee continues to meet the Special Permit Condition included as Attachment "A" of the current State permit.

There are no compliance actions pending for the Coal Terminal permit area.

**4.d Hydrologic Balance: Water Monitoring**

The Permittee is considering hiring an outside contractor to conduct, review, and report the required quarterly surface and ground water monitoring information for the Savage Coal Terminal to the DOGM EDI.

**20. Air Quality Permit**

The site's operational haul roads were in a damp condition. Ambient air temperatures are now within the range where road watering could create a hazard.
