Hi Pete

Hi Pete,

Thanks for the heads up about Pam's email.

I'm not sure what attachment Dan had to his original email to Pam. But, I took a look at the database pipeline, and everything there still looks good to me -- the data that put in is still there and it's got the "green light" to be uploaded. So, I assume that Dan will just email Pam back. I'll check the database every once in a while to make sure it gets uploaded, and if not, I'll touch base with Dan again.

Thanks!
Karla
