Re: Temporary/Portable Truck Dump
Savage Coal Terminal
C/007/022
Carbon County, Utah

Dear Daron:

This letter is to inform the Division of a possible future stockpile and coal handling revision at the Savage Coal Terminal. We are presently waiting on an updated topo map from a recent aerial flight at the site. Once this map is completed, more detailed plans can be drawn up and a complete submittal of an amendment will be made. In the meantime, we would like to try out a portable truck dump to determine if it will suit our long term needs. This truck dump would be placed in an approved coal stockpile area on the south side of the property. Since Savage has an approval for 5 truck dumps and hoppers, one of the dumps (No. 5) will remain idle while this test dump is in use. If it works out, and the decision is made to revise the plan, this truck dump would later be placed in a permanent location, after approval.

I've discussed this project with Mr. Pete Hess, and I'm submitting this letter at his suggestion.

If you have any question, or need additional information, please let me know.

Sincerely,

Dan W. Guy
