Subject: Re: Request for Extension on SCT T/A.

Dan,
Your request for additional time to address the Savage Plan Rewrite is hereby approved. You now should plan to submit the required information by no later than February 27, 2009. Thank you for your diligence in completing this requirement.
Sincerely,
Daron R. Haddock
Permit Supervisor

Daron:

This e-mail is a request to extend the response for the Savage Plan Rewrite T/A to 2/27/09. We are still waiting to receive certain legal information, as well as past ownership data. It's obvious that this won't be completed by 1/30/09, as planned. An extension to the end of February will allow us to meet with some or all of the reviewers and submit a more complete response to the T/A.

Please let me know if this extension can be approved. Thank you for your consideration.
