Subject: Temporary Seed Mix (for settling pond topsoil stockpile), Savage Industries, Inc., Savage Coal Terminal, C/007/0022, Task ID#3421

Dear Mr. Walters:

The Division has completed a review of the above amendment concerning reseeding the topsoil stockpile at the settling ponds. The Division has determined the application should be conditionally approved with the following recommended revisions:

[R645-301-121.200]: The Division does not object to reseeding of the topsoil pile, but does not approve of replacing the existing Table 5-1 Temporary Seed Mix. The list of seed used in supplemental reseeding on the topsoil stockpile should be given a new table number. The temporary seed mix should be added to the MRP as a separate table, perhaps 5-2 and the interim mix should remain as 5-1. The seed mix should include Four Wing Salt Bush and Winter Fat each broadcast seeded at a rate of 2#'s /acre.

Please submit 4 clean copies by January 21, 2010. Upon receipt of the appropriate number of clean copies, final approval of this amendment will be granted. If you have any questions, please call me at (801) 538-5325 or April Abate at (801) 538-5214.

Sincerely,

James D. Smith
Permit Supervisor
