Re: Wildcat Loadout Facility, PRO/007/033-87A, Request to Change
Sediment Pond Inspection Frequency

Dear Dr. Nielson:

The Albuquerque Field Office (AFO) could not review the above referenced PAP amendment. The amendment documents received by AFO concerned Andalex Resources' letter stating their option to not use carbonaceous rock material for riprap at pond inlets, rather than the captioned sediment pond inspection frequency.

If you would like for the AFO to comment on the above referenced PAP amendment, please forward it.

Sue - would we "liberate" them to comment?

If you have any questions, please call Bernard R. Freeman at (505) 766-1486.

Sincerely,

Robert H. Hagen, Director
Albuquerque Field Office
