RE: Wildcat Loadout Site Visit, Andalex Resources, Inc.,  
PRO/007/033, Folder #2, Carbon County, Utah

Jim Fricke, Pamela Grubaugh-Littig and Bill Malencik conducted a site visit of the Wildcat Loadout on May 14, 1987. Kathy Mutz and Dan Duce observed the site on May 15, 1987. The purpose of the site visit was to acquaint team members who will review the permit application with the site.

Presently, Andalex Resources is removing an obsolete loadout in the permit area. There are sediment controls on site currently and topsoil stockpiles.

Mike Glasson was advised that Andalex Resources, Inc. must formally commit by May 29, 1987 to submit an application for this site.
