RE: Review of Response to Initial Completeness Review,
Andalex Resources, Inc., Wildcat Loadout, PRO/007/033,
Folder 2, Carbon County, Utah

We have received the response from Andalex Resources to our February 19, 1988 Initial Completeness Review of the Wildcat Loadout Permit Application Package.

We need to review the responses for both completeness and technical adequacy, in accord with the following schedule. Please recall that your product will be a regulation-by-regulation typed draft in standard ICR/TD format.

1. Written comments due to Donna June 23, 1988.
2. Edit your comments and return to typing June 27, 1988.
3. Final draft to team review members June 28, 1988, at 10:00 a.m.
4. Edit session June 29, 1988 at 10:00 a.m.

In preparation for June 29, 1988 group edit session which will be in Conference Room B; please assure that you have read the entire document (yours and everyone else's write-up) before that meeting. Come prepared with your technical questions and suggested editorial changes. Please see me if you have any questions or scheduling constraints. Thank you.
