Dear Mr. Glasson:

Re: Determination of Completeness, Andalex Resources, Inc., Wildcat Loadout, PRO/007/033, Folder #2, Carbon County, Utah

The Utah Division of Oil, Gas and Mining (Division) has completed a review of the Permit Application Package (PAP) and amendments submitted by Andalex Resources for the Wildcat Loadout. The Division has determined the plan to be complete.

Per the enclosed letter, notice has been given to all appropriate agencies having jurisdiction over, or an interest in, the area of the proposed operations that a complete plan is available for public review.

As discussed with you, Andalex Resources must publish an advertisement for four (4) consecutive weeks in the Sun Advocate providing all information as required under UMC 786.11(a). Please provide proof of publication documenting the four dates published in the consecutive four (4) week publication period to the Division as soon as it is available.

While the public notice process is ongoing, existing technical deficiencies will be resolved and a draft technical analysis will be formulated.

Sincerely,

John J. Whitehead
Permit Supervisor/
Reclamation Hydrologist
