Dear Mr. Glasson:

Re: Review of Third and Fourth Quarter Surface Water Monitoring Reports, Andalex Resources, Inc., Wildcat Loadout Facility, ACT/007/033, Folder #2, Carbon County, Utah

Division technical staff have reviewed your Third and Fourth Quarter Water Monitoring Reports for the Wildcat Loadout Facility (see attached memorandum). It appears that certain parameters were not tested during the third quarter. Please be aware that following permit approval, scheduled for April 30, 1989, Andalex Resources, Inc. will be committed to the approved water monitoring plan given in the Wildcat Loadout Facility Permit Application Package. Please be aware that, in the future, failure to monitor according to the approved plan may result in enforcement action.

Sincerely,

A handwritten signature in cursive script that reads "Richard V. Smith".

Richard V. Smith
Acting Permit Supervisor
