INSPECTION REPORT COMMENTS

Permit No. ACT/007/033

Inspection Date 26 June 1991

Please number comments to correspond with topics on previous page.

1. PERMITS

-Spill Prevention, Control and Countermeasure (SPCC) plan addresses spill containment for the antifreeze tank beneath the loading silo (see inspection report of 14 May, 1991). In the event of an antifreeze spill, Pond 'A' will contain all spilled material.

4. HYDROLOGIC BALANCE

(b) Diversions--All ditches and culverts were examined and found to be clean and free of debris.

(c) Sediment Ponds and Impoundments--All sediment ponds are empty, despite the recent rains. Pond embankments are in good condition, free of erosion damage, and covered with vegetation. Pond 'B' is now undergoing cleaning ~~and~~ and routine maintenance.
