Re: ACT 007/033, Expansion

Dear Ms. Littig:

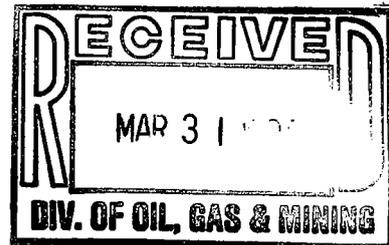

Enclosed please find a package of material pertaining to Andalex Resources' proposed expansion at the Wildcat Loadout Facility. This plan for expansion essentially consists of a second truck dump within the same basic loop as the existing dump; a short overland reclaim conveyor originating beneath the truck dump (below ground); and a radial stacker. The plan also calls for moving one topsoil storage pile and minor drainage adjustments.

Please call me with any questions.

Sincerely,

Michael W. Glasson
 Senior Geologist
