re: Wildcat Culvert Addition

Dear Ms. ^{Pam}Littig

Amendment
FAX cover to PFO
Incoming
ACT/007/083 - AMCOA

Enclosed are five copies of a proposal to amend the Wildcat Loadout MRP. This amendment will allow the placement of a 12 inch half-round culvert at a location within ASCA area 1. The purpose of the half-round is to take runoff from a location where a berm has been breached on more than one occasion. Previously the runoff had been treated by total containment; now it will be treated by straw bales or silt fence. Runoff calculations show the culvert to be adequately sized, and capable of carrying the runoff from a 10 year, 24 hour event at a depth of 0.30 feet. Also enclosed are the required c-1 and c-2 forms.

Thank you and please call with questions.

Sincerely,

Michael W. Glasson
Senior Geologist
