4.b Hydrologic Balance: Sediment Ponds and Impoundments

Ponds C and F contained water this day. There were no hazardous conditions observed with any of the site's ponds.

4.d Hydrologic Balance: Water Monitoring

There was no flow observed in Wildcat Wash this day.

20. Air Quality Permit

Snow fence material has been in place for many years on the east side of the coal stockpile area. The purpose of the fence is to knock down airborne coal fines, and hopefully prevent the fines from landing on the topsoil associated with ASCA #3. The fence is in need of some minor repairs.
