Subject: MRP Rewrite, Andalex Resources, Inc, Wildcat Loadout, C/007/0033, Task ID #2451, Outgoing File

Dear Mr. Glasson:

The revised MRP is conditionally approved upon receipt of three clean paper copies and two digital copies of the plan. Please submit these copies by June 19, 2006. Once we receive these copies, final approval will be granted, at time you may proceed with your plans.

A stamped incorporated copy of the approved plan will be returned to you at that time for insertion into your copy of the Mining and Reclamation Plan. A copy of the revised Technical Analysis will also be provided upon final approval.

The Division understands that Andalex has retracted all plate revisions (with the exception of Plate 13, Topsoil Storage Piles) until the proposed plate revisions can be provided in digital format.

The reclamation plan is for the 60.94 acre disturbed area. The Division expects to continue refining the reclamation plan for this site in cooperation with the Permittee. Please remember the commitment in the MRP (pg. 2-7) to quantitatively evaluate the revegetation test plots this field season (late spring/early summer 2006).

Please contact either Priscilla Burton (435) 613-1146, Ext 207 or myself at (801) 538-5268 with questions.

Sincerely,

Pamela Grubaugh-Littig
Permit Supervisor
