Dave,

I included you on an earlier response to an e-mail from Jerriann regarding a Upper Colorado River Endangered Fish Recovery Program deficiency, which she identified as part of the mid term review at Wildcat. Because the Wildcat Expansion was in the works back in June, her comments got deferred from the mid term review with the idea of including them in the Expansion review; however, when the expansion was dropped, the Division didn't get the information on this deficiency to you. As I said in the e-mail to Jerriann, if possible, could you address this in your response to the midterm deficiencies?

Thanks,

JIM
