Dave,
Thanks for meeting us at Wildcat today. Once finalized, I'll make sure you get a copy of our inspection report which describes the commitments agreed to during the inspection. To follow up on the notification for temporary cessation, Rule R645-301-515.300 and the same section in the Wildcat MRP describe the procedures for temporary cessation of operations, including submittal of notice to the Division. Since it looks like the Wildcat Loadout will be idle for at least 30 days, you should submit notice to the Division.

Thanks again and let me know if you have any questions.

Kevin
