Subject: Clean copies for Wildcat Response to DO-04A  
CC: Dana Dean; Daron Haddock; Jim Smith; OGMCOAL

---

Dave,

The Division received the Ownership & Control (O&C) information from Snell & Wilmer on August 31, 2010 responding to the O&C deficiencies identified by the Division for Task ID No. 3593 (Response to DO-04A). The August 31, 2010 O&C submittal identified numerous entities which require updating in OSM's Applicant Violation System (AVS). There is currently a 2+ week backlog for getting AVS updates completed by OSM.

Rather than further delay resolution of DO-04A due to AVS issues, the Division is requesting that you submit clean copies for approval of the Response to DO-04A. The clean copies must address the deficiencies identified by the Division in our letter dated August 23, 2010 (Task ID No. 3593). The clean copies should include the Revised 8/31/2010 O&C information as provided in the Snell & Wilmer submittal.

Please submit five clean copies at your earliest convenience. Once we receive these copies, final approval will be granted and a stamped incorporated copy of the approved plan will be returned to you at that time for insertion into your copy of the Mining and Reclamation Plan.

Thank you for your assistance in this permitting action. Please call me at (801)538-5352 or Daron Haddock at (801)538-5325 if you have any questions.

Regards,  
Kevin
