Denise, Daron....Attached for your files is a signed copy of the Wildcat DOGM MRP transmittal. The original, wet-stamped incorporated MRP, including text, maps, and appendices, was transferred to Lance Lee on Friday, July 5, 2011. An electronic version of the MRP was also supplied to IPA to make it easier to make future changes to the text and maps as needed. This should officially conclude the SMCRA permit requirements for transfer of the Wildcat facility to IPA. I will remove the Andalex permit signs from the property this afternoon.
