# TECHNICAL MEMORANDUM

Utah Coal Regulatory Program

---

October 25, 2011

TO: Internal File

THRU: Steve Christensen, Team Lead *SKC*

FROM: Angela Nance, Business Analyst *AN*

RE: Chapter 1 Revisions, Wildcat Loadout, Intermountain Power Agency, C/007/0033, Task ID #3943

## SUMMARY:

The Division received updated Chapter 1 information on October 24, 2011 as requested during the Permit Transfer. This Technical Memorandum reviews the ownership and control information to ensure that it is current and correct as compared to the information found in the Applicant Violator System (AVS).

The findings in this memo are based on a review of the current Mining and Reclamation Plan (MRP).

**TECHNICAL MEMO**

---

**TECHNICAL ANALYSIS:**

**GENERAL CONTENTS**

**IDENTIFICATION OF INTERESTS**

Regulatory Reference: 30 CFR 773.22; 30 CFR 778.13; R645-301-112

**Analysis:**

The Wildcat Loadout Facility was transferred from Andalex Resources, Inc. to Intermountain Power Agency on June 27, 2011. One of the conditions of the permit was to update Chapter 1 of the MRP to reflect the new ownership and control of the loadout. The Operator submitted updated Chapter 1 information on October 24, 2011.

**Findings:**

The Operator submitted updated ownership and control information to reflect the officer and director information for Intermountain Power Agency. This information will be sent to the AVS office to update the federal database. However, the Operator must also submit a Secretary's Certificate indicating the end dates for all of the previous officers and directors.

**RECOMMENDATION:**

The Operator should submit a Secretary's Certificate with the end dates of the previous officers and directors so that the AVS can be updated to reflect only the officers and directors of Intermountain Power Agency in accordance with **R645-301-112.330**.
