---

Lance,

For review purposes, we need 3 copies of the redline strike-out. As we will be initiating another round of review, the 3 copies is all we'll need on May 18th. Once we get through the outstanding deficiencies, 6 clean copies are required for final approval.

Let me know if you have any more questions.

Thanks,  
Steve

Lance,

We will extend the due date for the Midterm Review response to May 18th as you requested. (Suzanne please extend the date in our tracking system) Please make every effort to complete the submittal by the May 18th date. We do not anticipate any further extensions beyond this date. Thank you for your diligence in completing this requirement. Regards,

Daron R. Haddock

Steve,

I've hit a glitch with my clerical staff and they haven't provided me with the final documents. Unfortunately my schedule is pretty jammed up next, is there a way I can have an extension until May 18<sup>th</sup>? Also, can you remind me how many final copies you need and how many redline versions you need?

Thanks,  
Lance

Good morning Lance,

I apologize for not getting back to you sooner. I managed to scan through all of the files that you sent and nothing jumped out at me that would be of concern. The Sediment Pond B calculations and design drawings look good. The bonding information and the nitty gritty details will be reviewed and worked out with the staff when you submit the information on May 4th, but it looks like you're on the right path to me.

Give me a call if you have any questions or I can help in any way.

Regards,  
Steve

Steve,

As we discussed earlier this week, here is an advanced copy of the redline version of the changes in all chapters 1-8 as well as the information that will address the issues raised during the mid-term review.

I hope to have all this info (along with final versions of the chapters) submitted to UDOGM within the next 2 weeks. Please let me know if you have any questions, comments, or concerns.

I hope you have a great weekend.

Thanks,  
Lance

**Subject:** RESPONSE TO DOGM MID-TERM PERMIT REVIEW TASK ID #3931

Hi Lance, attached are the responses to DOGM's Mid-term Permit Review at Wildcat. A copy of the original letter from DOGM is attached. The responses address the items in the Deficiency List included in the letter.

The responses are as follows:

Item 1: Addendum to Appendix N addresses the first part and Chapter 2, page 2-11 addresses the remainder.

Item 2: This will be accomplished by IPA (Lance) creating a cover page for each chapter in the permit specifying IPA and not Andalex is the current Permittee.

Item 3: Addressed with Addendum to Appendix R, and Appendix P, page 2, Paragraph 3, page 5, Paragraph 3, page 7, Paragraph 6 and page 8, Paragraph 9, and Plate 3B.

Item 4: Addressed with revised Plate 2A.

Item 5: Covered by the above revisions.

Please feel free to contact me if you have any changes, comments or questions.

Thanks again,

Kit
