Subject: Midterm Review Completion Response, Intermountain Power Agency, Wildcat Loadout, C/007/0033, Task ID #4142

Dear Mr. Hewlett:

The Division has reviewed your application to address the Midterm Review Completion. The Division has identified deficiencies that must be addressed before final approval can be granted. The deficiencies are listed as an attachment to this letter.

The initials of the deficiencies authors are provided so that your staff can communicate directly with that individual should questions arise. The plans as submitted are denied. Please resubmit the entire application by no later than August 31, 2012.

If you have any questions, please call me at (801) 538-5350.

Sincerely,

Steve Christensen
Permit Supervisor

Deficiency List
Task No. 4142
Midterm Completion Response

Members of the review team with outstanding deficiencies:

Pete Hess (PH)

R645-301-534.300 / 534.320, Primary Road PR-5 will “be surfaced with rock, crushed gravel, asphalt or other material approved by the Division as being sufficiently durable for the anticipated volume of traffic and the weight and speed of vehicles using the road”.

Page 2, Appendix “P”, line item #5, of the Task ID # 4142 submittal must be corrected to state that “PR-5 will be graveled prior to coal trucks accessing the main stockpile loading area from the East side of the property, (i.e., by primary road PR-5)”. (PH)

R645-301-150, the Permittee must revise the Division Order DO-04 language in Appendix P and Appendix R so that both texts are congruent. (PH)

R645-301-830.140, Detailed Estimated Cost Sheets, the Permittee must include a detailed reclamation cost estimate for the recovery and disposal of the PR-5 road surfacing material (R645-301-542.640). All assumptions must be noted on the cost estimate sheet. (PH)

This line item cost is to be included in the demolition section of the reclamation cost estimate in the MRP. The Division can provide its cost estimate for this phase of the demolition. (PH)
