Tom,

Per our phone conversation, I've CC'd the e-mail address that you can electronically submit the following:

- 1) The response to the forthcoming Notice of Violation (NOV) and
- 2) The change in operator information from America West to Wild West.

As we discussed, it might be better to submit two separate amendments as opposed to one in the event that there are deficiencies with the change in Operator information that take more time to address.

The address is ogmcoal@utah.gov. Make sure the C1/C2 forms are signed and notarized.

Give Amanda a call and discuss the abatement requirements for the NOV and we should be good to go for now.

If you have any questions, give me a call.

Regards,
Steve
