Associate Director of Mining Dana Dean and Gentlemen:

FYI.

The older I get, the more I realize I have a great deal to learn.

My learning experience today is that I've determined that in order to Construct or Conduct Bulk Crude Oil Transfer Facilities an Air Pollution Control Permit relating to volatile organic compounds from the U.S. Environmental Protection Agency is required.

They can be reached at [1-800-227-8917](tel:1-800-227-8917) or <http://www.epa.gov/region08>.

Tom, I did not know how to get in touch with Lee Abrams at Wildcat.

Thank you.
