Report summary and status for pending enforcement actions, permit conditions, Division Orders, and amendments:

Observed progress on coal fines clean up. Dan Baker, Wild West, was on site as well as Joe Fielder on the Bobcat and Kevin Peterson on the CAT dozer. NOV 10132 was terminated on March 14th. Pete Hess and Amanda Daniels returned to the site on March 12, 2014. Seeding was completed on March 14, 2014. The area cleared is planned to be included in the disturbed area as IN SITU topsoil storage. The wind fence should be extended along PR 5 to protect the IN SITU storage of topsoil. The coal stockpile pad berm needs to be stabilized. Figure 2 should be revised to show the mechanically treated area in 2014.
