## **2. Signs and Markers**

The sign at the entrance to the facility needs to be updated. It currently lists America West as the operators of the facility.

### **4.a Hydrologic Balance: Diversions**

Ditches along the north end of the facility, leading to pond E, need to be cleared of tumble weeds and debris. Joe Fielder was informed and stated that it would be taken care of.

### **4.d Hydrologic Balance: Water Monitoring**

Water monitoring data has been submitted to the DOGM database as required.

## **22. Other**

Fences were installed along the east road and on the berm above the road. Fences were also installed along the excelsior logs on the east side of the facility directly adjacent to the coal piles. Joe stated that the fences seem to help with dropping the coal fines. See attached picture.
