Subject: Permit Change for Chapter 1, Intermountain Power Agency, Wildcat Loadout, C/007/0033, Task ID #5159

Dear Mr. Eldredge:

The Division has reviewed your application. The Division has identified deficiencies that must be addressed before final approval can be granted. The deficiencies are listed as an attachment to this letter.

The coal rules have a specific definition of Operator. The information in your application is not adequate to describe the operators at this location. Either additional information needs to be included in the application to describe the operators that are listed or the designation of operators listed needs to be changed to reflect their actual relationship with Intermountain Power Agency.

The deficiencies authors are identified so that your staff can communicate directly with that individual should questions arise. The plans as submitted are denied. Please resubmit the entire application.

If you have any questions, please call me at (801) 538-5325.

Sincerely,

Daron R. Haddock
Coal Program Manager
