Good morning Larry,

Quick e-mail to let you know that we will vacate NOV #21224 (3rd quarter 2019 water monitoring violation). Per your e-mail, it's our understanding that the monitoring was conducted before the end of the quarter. The documentation will be sent to you in the next day or two. Let me know if you have any questions.

Regards,  
Steve

Subject: NOV 21222, 21223, and 21224

To: Suzanne Steab &lt;suzannesteab@utah.gov&gt;

Cc: Bob Nead &lt;basic@altoncoal.com&gt;

Good Morning Suzanne

Attached is a pdf of the signed NOVs 21222 and 21223. These two will not be contested. During the transfer of ownership both the 1st quarter and the 2<sup>nd</sup> quarter water base surveys on the 4 drainages were not done. There was a misunderstanding on who was doing that work.

That has since been cleared up. As far as the NOV 21224, 3<sup>rd</sup> quarter of 2019, that survey and monitoring work was done on Sept 30, 2019 and has been processed into the EPA data base. This NOV should not have been written. If DOGM needs further evidence of this, please contact me. NOV 21224 should be vacated.

Although water monitoring data was not collected on these four drainages during the 1<sup>st</sup> and 2<sup>nd</sup> quarter, historically there has been NO FLOW during previous quarterly surveys. Please take this into account while assessing NOVs 21222 and 21223

Thanks You

Larry W. Johnson
