1. Permits, Change, Transfer, Renewal, Sale

1. There are no pending amendments with the Division at this time.

2. Signs and Markers

The identification sign was inspected and it meets the requirements of the R645 Coal Rules. See Photo

4.a Hydrologic Balance: Diversions

Diversions and culverts were completely snow covered. Due to low temperatures it is unlikely that the diversions had water flow.

7. Coal Mine Waste, Refuse Piles, Impoundments

I inspected the refuse pile and it appears to be stable and snow covered. I did not notice any hazardous conditions to the embankments. The diversions were functioning as design. The refuse pile is inactive at this time. Road was snow covered. See Photo

8. Noncoal Waste

I did not notice any non-coal waste materials. The mine site is completely snow covered.

16.a Roads: Construction, Maintenance, Surfacing

Roads on the coal side were snow covered. We got stuck several times.
