RE: Soil Analysis
Banning Loadout PRO/007/034

Dear Susan:

I have enclosed the requested coal sample analysis for the saturated paste extractable elements and other requested tests. Also, enclosed are 13 copies of the corrected page, 1-58, and you should remove the old 1-58 and insert the new 1-58. The analysis information should be inserted into item 24 of section 1.16, Correspondence.

As per our telephone conversation of Wednesday, 14 September 1988, I shall expect some comment from your office within the next two weeks.

Thank you for your time. If you have any questions, please contact me.

Sincerely,

C.P. Allen
Mine Engineer
