The Division has completed review of your company's submittal received September 25, 1989. The plans were reviewed by Randy Harden, Reclamation Engineer, of the Division's technical staff. Resolution of the following condition by October 20, 1989 will consummate final approval.

Please submit ten (10) copies of revised Exhibit 5.2-1 along with a narrative describing construction, use and reclamation of the substation, which can be inserted into the approved Mining and Reclamation Plan.

If you have any questions, please call Mike DeWeese or me.

Sincerely,
