PERMIT NUMBER: ACT/007/034

DATE OF INSPECTION: November 3 and 24, 1995

(Comments are Numbered to Correspond with Topics Listed Above)

I had intended to inspect the site on November 24, but the gate was locked and I couldn't find anyone at the mine that could let me in. For this reason, I only checked the flap on the conveyor from a distance and the entrance sign. On the third, I had visited the site and checked drainage controls, but I had not intended this to be an inspection. Although I do not anticipate any problems, December's inspection should be more thorough.
