Re: Revised Surface Facilities Map, Canyon Fuel Company, LLC, Banning Loadout, ACT/007/034-99A, File #2, Carbon County, Utah

Dear Mr. Spillman:

The revised Surface Facilities Map amendment is approved July 30, 1999. The amendment was received by the Division on June 17, 1999 and reviewed by Steve Demczak, Senior Reclamation Specialist for the Division. The revised map clearly identifies areas designated for equipment storage. This is the best alternative as the Banning facility currently has the capacity to store materials and equipment from your other mining operations. A stamped approved incorporated copy is enclosed for insertion in your MRP. The technical analysis prepared by Steve Demczak is provided for your records.

**Analysis:**

**Mining Facilities Maps**

The permittee has submitted an updated surface facilities map to show the location of the equipment storage area.

### Analysis:

#### Certification

The permittee has certified the complete package; therefore, it complies with the certification requirements in the R645 Coal Rules.

### Findings:

Information provided in the proposed amendment is considered adequate to meet the requirements of this section.

If you have any questions, please call.
