- Met Requirements Did Not meet Requirements

The sediment pond was inspected annually in 2015 on 07/30/2015 and 08/25/2015. This inspection was also done for the third quarter 2015 inspection. The 60% sediment elevation is 5486.6 and the existing sediment elevation is 5486.1. (krh)

The site remains in temporary cessation status. All surface facilities have been reclaimed with the exception of the truck dump grizzly and the asphalted access road. The Permittee submitted the required quarterly impoundment inspection for 2015 with Annual report submittal document. Inspections were completed by Bill King on 3/24, 6/18, 7/30, and 12/17. Dave Spillman, a Utah PE, joined Bill on the 7/30 inspection to meet the required annual PE pond inspection. To date there have been no signs of instability, structural weakness or

other hazardous conditions observed at the pond. The pond's approximate storage capacity is 0.27 acre-ft at an elevation of 5,487.8 feet. To date there has been no discharge from the pond according to the Permittee, however, UPDES Permit Number UTG040011. (CP)

FUTURE COMMITMENTS AND CONDITIONS

The following commitments are not required for the current annual report year, but will be required by the permittee in the future as indicated by the "status" field. These commitments are included for information only, and do not currently require action. If you feel that the commitment is no longer relevant or needs to be revised, please contact the Division.

Title: Air Quality Emissions Report

Objective: Review Emission Inventory

Frequency: While Active

Status: Not Active

Reports: While active, the emission inventory for the operation is submitted to the Utah Division of Environmental Health, Bureau of Air Quality. A copy of this emission inventory will be included in the annual report.

Citation: Ch. 4, page 4-10 and Ch. 5, page 5-13

Title: Coal Sampling

Objective: Monitor Coal Quality

Frequency: Annually while active

Status: Not Active

Reports: On an annual basis, all coal-quality monitoring data collected from the site during the previous year will be summarized and submitted to the Division. Raw data received from the laboratories will also be included, along with an interpretation of the analytical results and any proposals for changes in the monitoring plan. These data and interpretations will be included with the annual report that presents the surface - water data.

Citation: Ch. 6, page 6-5 and Ch. 7, page 7-11

Operator Comments (Optional)

REPORTING OF OTHER TECHNICAL DATA

Please list other technical data or information that was not included in the form above, but is required under the approved plan, which must be periodically submitted to the Division.
