Mr. Clark Johnson, Field Supervisor
U.S. Fish and Wildlife Services
Ecological Services
2060 Administration Building
1745 West 1700 South
Salt Lake City, Utah 84104-5110

Dear Mr. Johnson:

Re: Permit Application, Sunnyside Cogeneration Associates, Sunnyside Refuse Pile, PRO/007/035, Folder #2, Carbon County, Utah

The permit states that no threatened or endangered plant or animal species or their critical habitat occur within the permit area.

Sunnyside Cogeneration Associates plans to mine the Sunnyside Mines refuse pile. No new disturbances are planned for the mine. I have enclosed a map of the permit area for your convenience.

If these statements are correct, please sign, date and return this letter. If these statements are not current, please send the Division a current species list of endangered or threatened plant or animal species which could potentially be in the permit area and advise as to power poles.

Thank you for your attention to this matter.

Sincerely,

Pamela Grubaugh-Littig
Permit Supervisor
