ACT/007/035 #2
Copy PAM: Susan

Dear Pam,

This letter is in regards to Permit Conditions No. 7 and 8 which are due by July 31, 1993. As discussed in the meeting held at DOGM on June 30, 1993, a proposed schedule was submitted concerning the completion date for these stipulations. This schedule was included as Exhibit 5 in the June 30th submittal.

SCA has retained the services of Mr. Pat Collins of Mt. Nebo Scientific to perform the necessary work to satisfy these permit conditions. Presently, Mr. Collins has accomplished most of the field work and expects that one more trip may be required to obtain the necessary information. Recent correspondence with Mr. Pat Collins of Mt. Nebo Scientific has confirmed the proposed schedule that was submitted to DOGM on June 30. Therefore, as outlined in the schedule, the final report will not be completed until August 31, 1993. SCA would like time to review the report prior to submittal to DOGM, thus, SCA is requesting an extension for Permit Conditions 7 and 8 until September 15, 1993.

If there are any questions, please feel free to call.

Sincerely,

AEB for

David R. Pearce
