Dear Pamela:

This letter is in regards to the violation received for failing to classify each road in the P.A.P. (No. 5 of 9).

The violation was formally received by S.C.A. on August 18, 1993. Part 1 of 3 of the violation is to be completed by August 27, 1993 by 5:00 p.m. This enabled us only 7 days to complete. S.C.A. is currently updating Plate 5-1 to classify and station each road within the permit area. S.C.A. is also preparing a table with design parameters for each road with typical sections.

Our field crews are not available until the week of September 13, 1993. We intend to complete the field work at this time. It will then take an additional 2 weeks to input field information for design. Therefore, we are requesting an extension to October 1, 1993.

Please consider the circumstances surrounding this matter. If you have any questions, please call.

Sincerely,

AEB for

Dear Pam,

This letter is in regards to Violation No. 9 of 9, "Failure to provide complete and accurate ownership and contractual information as required by R-645-301-100."

At this time, SCA has requested corporate structure information from both SCC and Savage Industries, although, the information has not yet been obtained. Therefore, SCA is formally requesting an extension until September 10, 1993. This will give the parties involved ample time to furnish the necessary information. It will also allow time to incorporate the information into the PAP.

We appreciate your cooperation in this matter. If there are any questions, please call.

Sincerely,

AEB for
