RE: Permit Condition #5, sunnyside Cogeneration Associates,  
Sunnyside Refuse and Slurry, ACT/007/035, Folder #2,  
Emery County, Utah

Ken Wyatt and myself inspected Icelander Creek on June 17, 1993 and after consultation with DWR determined that adequate flow still existed to preform the required sampling. I contacted Jessica Smith with Eckhoff, Watson and Preator Engineering this morning and notified her that Icelander Creek must be sampled within the next two weeks.
