Mr. David Pearce
Sunnyside Cogeneration Associates
P.O. Box 58087
Salt Lake City, Utah 84158-0087

Dear Mr. Pearce:

Re: Response to Stipulation #18, Sunnyside Cogeneration Associates, Refuse and Slurry, ACT/007/035, Folder #2, Carbon County, Utah

The above-noted stipulation has been reviewed. The permittee must submit, for Division approval, a "screening" procedure which will ascertain the effects of sample refuse storage upon the physiochemical nature of the refuse samples, and/or submit, for Division approval, a proposal to resample the refuse material to determine the acid- and/or toxic and alkalinity-forming potential of the existing slurry ponds and the coarse refuse pile material. Enclosed please find the review from Henry Sauer with the specifics regarding this issue.

Please submit the "screening" procedure and/or proposal to resample the refuse and slurry ponds by June 11, 1993. If you have any questions, please call me.

Sincerely,

A large, stylized handwritten signature in black ink, appearing to read 'Pamela Grubaugh-Littig'.

Pamela Grubaugh-Littig
Permit Supervisor
