RE: Sunnyside Cogeneration Associates (SCA) Permit No. ACT/007/035 #5  
Violation N93-32-5-2 No. 1 of 2 OLD COARSE REFUSE ROAD RECLAMATION  
Project Number EC450593

*Copies of NOV file*

Dear Joe:

This letter is written to again request **Termination of Violation No. N93-32-5-2 No. 1 of 2.**

Failure to place, in a controlled manner, and/or treat acid-forming material. Failure to place coal mine waste in an approved disposal facility. Remove all acid-forming materials from the Old Coarse Refuse Road and place material in an approved disposal facility. R645-301-528.320 and R645-301-701.300

Last month SCA had completed the steps needed to abate this violation, as originally written, by removing all acid-forming materials from the Old Coarse Refuse Road and outer slopes, placing it in a controlled manner, and treating the material in an approved disposal facility. You indicated at that time that the Division wanted SCA to also complete all of the planned final reclamation work, including seeding and erosion control matting on slopes steeper than 2:1, prior to terminating the NOV.

SCA has now completed the final reclamation activities in this area. Please approve the work as final reclamation and terminate the violation N93-32-5-2 No. 1 of 2.

Sincerely,
