RE: Sunnyside Cogeneration Associates (SCA) Permit No. ACT/007/035
Violation N93-32-5-2 No. 1 of 2 OLD COARSE REFUSE ROAD RECLAMATION
Project Number EC450593

Dear Joe:

ACT/007/035 #5

This letter is written to request Termination of Violation No. N93-32-5-2 No. 1 of 2.

*Copy PAM, Joe,
Dante,
Henry*

Failure to place, in a controlled manner, and/or treat acid-forming material. Failure to place coal mine waste in an approved disposal facility. Remove all acid-forming materials from the Old Coarse Refuse Road and place material in an approved disposal facility. R645-301-528.320 and R645-301-701.300

SCA has completed the many steps needed to abate this violation by removing all acid-forming materials from the Old Coarse Refuse Road and outer slopes, placing it in a controlled manner, and treating the material in an approved disposal facility.

The previous Modification of the NOV (dated 9/19/94) extended the abatement period to Oct 15, 1994. The Division staff is well aware of the progress history during this abatement effort. Coordination efforts throughout the past months have included several submittals, meetings, phone calls, and site visits.

SCA continues to complete reclamation activities in this area and believes that adequate information has been submitted to approve the final reclamation design. SCA intends to have seeding activities completed and additional erosion control measures on slopes steeper than 2:1 by the end of November 1994.

Sincerely,

AEB for
