RE: ACT/007/035: Sunnyside Cogeneration Associates Project No. EC450593

ACT/007/035 #2
Copy PAM

Dear Randy,

This letter is in regards to the Mine Sequence Map that is required for the Sunnyside Cogeneration Associates (SCA) Annual Report. When the Annual Report was submitted, SCA estimated that the Mine Sequence Map could be submitted by May 31, 1994. Presently, the Mine Sequence Map is not yet complete, but is expected to be completed by August 1, 1994. When the map is complete, SCA will submit three copies to the Division.

SCA has decided that conducting annual aerial photography will be most accurate and beneficial over the long term. This is scheduled to occur each year in January if conditions are conducive.

The calendar year 1993 was not normal because of the necessary start up procedures. Future years should not have these delays. Thank you for your consideration in this matter. If there are any questions, please feel free to call.

Sincerely,

AEB for
