RE: **PAP Submittal for Final Reclamation of Old Coarse Refuse Road**
Violation N93-32-5-2 No 1 of 2
Project No. EC450593

ACT 1007/035 #5
Copy Je

Dear Randy,

Enclosed is the PAP Submittal required for final reclamation of the Old Coarse Refuse Road. SCA plans to remove the coal material from the outer slopes of the road and bury it on the inside cut of the road. SCA will also reclaim the above ground culvert (RC-C1) shown on Plate 10-2A.

A drainage diversion will be constructed from the east end of the reclamation project to the outlet of the above-ground culvert (OCR-C1) as shown on Plate 10-2C. Runoff from the south bank of the East Slurry Cell will be diverted through this ditch into the Old Coarse Refuse Road Pond. A revision of the drainage calculations for this pond have also been submitted to verify sufficient capacity for this additional runoff. All affected plates have been resubmitted (7-1, 7-1B, 7-1D, 7-6).

On January 26, 1994, SCA submitted the erosion control plan for the reclamation project on the Old Coarse Refuse Road. This plan to install silt fencing was approved by the Division. Plate 7-18 (Old Coarse Refuse Road - Silt Fence Detail) which was submitted at that time, can be removed and replaced with Plate 10-2B (Old Coarse Refuse Road Erosion Control Plan and Detail). The fence will be completed prior to beginning excavation.

SCA's intended time schedule for the project is to bid the project as soon as possible, begin construction by May 30, 1994, and complete grading in time to meet the Fall seeding window.

Sincerely,

David Pearce

APPLICATION FOR PERMIT CHANGE

Title of Change: **SUNNYSIDE COGENERATION ASSOCIATES**
Final Reclamation of The Old Coarse Refuse Road

Permit Number: **ACT/007/035**

Mine: **Sunnyside Cogen. Assoc.**

Permittee: **Sunnyside Cogen. Assoc.**

Description - include reason for change and timing required to implement: **NOV N93-32-5-2 No 1 of 2; Expected to be completed by end of the seeding window 1994**
