Re: Extension of Time to Respond to Slurry Sampling Plan Requirements, Sunnyside Cogeneration Associates, Sunnyside Refuse and Slurry, ACT/007/035, Folder #2, Carbon County, Utah

Dear Mr. Pearce:

On August 10, 1994, the Division sent you a request for additional discussion of the analytical methods and procedures to be used in your slurry sampling plan. Since that time additional discussions have occurred between the Division and SCA representatives. It has been determined that additional time may be needed to evaluate your request to waive the drilling and sampling requirements. As a result the due date for submitting additional discussion of analytical methods and procedures is extended to October 3, 1994. Thank you for your help during the permitting process.

Sincerely,

A handwritten signature in black ink that reads "Daron R. Haddock".

Daron R. Haddock
Permit Supervisor
