RE: Permit No. ACT/007/035: Sunnyside Cogeneration Associates
Silt fence along the permit boundary north of
the crushing facility

Dear Bill:

As discussed, we have enclosed three copies of a minor permit amendment to add a silt fence along the permit boundary north of the crushing facility. This silt fence is an effort to reduce the potential for wind transport of fines.

Please call me at (801) 888-4476, if you have any questions regarding information in this submittal.

Sincerely,

Danny Mattingly
General Manager
