MEMORANDUM

TO: File C-ACT/007/035-96A-1, Sunnyside Co-Gen
FROM: JIM CARTER *[Signature]*
DATE: April 11, 1997

The Division issued a Division Order Dated July 1, 1996 to Sunnyside Cogeneration Associates demanding an increase in the bond amount for the above-captioned mine. After several extensions of time to post the bond, the Division issued a cessation order C ACT/007/035-96A-1 on October 29, 1996. Sunnyside Cogen obtained temporary relief from the Board of Oil, Gas and Mining staying the effect of the Co pending a full hearing on the issues.

Pursuant to further discussions, the Division stipulated to withdraw the Division Order of July 1, and substituted a second Division Order dated November 26, 1996 ordering a revised bond increase. Sunnyside Cogen timely complied with the second Division Order, posting the demanded bond increase and the pending Board Appeal was dismissed.

The Cessation Order was terminated on January 8, 1997. Because the Division Order of July 1, which was the basis for issuance of the CO, had been withdrawn, the CO should have been vacated. Accordingly I have vacated the Cessation Order through the attached Vacation Order.
