Re: Approval of Revised Biological Descriptions and Seed Mixtures, Sunnyside  
Cogeneration Assoc., Sunnyside Refuse/Slurry, ACT/007/035-98A, File #3, Carbon  
County, Utah

Dear Mr. Sallas:

The Division has reviewed the information received on December 18, 1998, a proposal from your office to revise the wildlife information in the Sunnyside Refuse and Slurry Mining and Reclamation Plan. The information was submitted in response to comments from the Division of Wildlife Resources and the U. S. Fish and Wildlife Service. We have determined that the information adequately addresses the concerns and we hereby approve the submittal.

The copies that were submitted contain redline/strikeout text and will need to be submitted as clean text (redline/strikeout removed) so that they can be inserted to your Mining and Reclamation Plan. Please provide 3 clean copies by January 15, 1999.

Thank you for your help in completing this permitting action. If you have any questions, please call.

Sincerely,

A handwritten signature in black ink that reads "Daron R. Haddock".

Daron R. Haddock  
Permit Supervisor
