Re: Refuse Material Storage Only in Permitted Area, Sunnyside Cogeneration Association, Sunnyside Refuse and Slurry, C/007/0035, Outgoing File

Dear Mr. Netz:

In response to your phone inquiry to Karl Houskeeper, Reclamation Specialist in PFO, about placement of refuse material in un-permitted sites, the Division's Policy and Rules prohibit the placement of refuse in unpermitted sites (R645-301-528.320). Refuse removed from a permitted facility and transported to another location/facility, requires that the new location/facility be permitted. There is no exception for temporary storage or blending of refuse material at an unpermitted location/facility.

If you have any further questions, please feel free to call me at (801) 538-5268 or Karl Houskeeper at (435) 613-5330.

Sincerely,

Pamela Grubaugh-Littig
Permit Supervisor
