GARY R. HERBERT
Lieutenant Governor

April 26, 2007

Michael J. Blakey, Resident Agent
Sunnyside Cogeneration Associates
P.O. Box 159
Sunnyside, Utah 84539

Subject: Pasture Pond Expansion, Task ID #2765, Sunnyside Cogeneration Associates, Sunnyside Refuse and Slurry, C/007/0035

Dear Mr. Blakey:

The Division has completed our technical review of the above-referenced amendment. Approval of this amendment will become effective upon our receipt of a transmittal letter, C1/C2 form, and five clean copies of the amendment that include the following:

- Demonstration that the 18-inch CMP emergency spillway of the Pasture Pond can safely discharge the 25-yr/6-hr precipitation event (R645-301-742.223); and
- A copy of the updated bond calculation for 2007

Upon our receipt of these items, a stamped incorporated copy will be returned to you for your mine plan records.

Also, as a reminder, the Utah Division of Water Quality is issuing a new UPDES permit for the Sunnyside Cogeneration facility to reflect the removal of outfall 004 (the Clear Water Pond). The new UPDES permit will need to replace the existing permit in Appendix 7-1 of the Mining and Reclamation Plan once it is issued.

Thank you for your extensive efforts in addressing the technical deficiencies during the review process. If you have any questions, please feel free to call me at (801) 538-5286 or Steve Fluke at (801) 538-5259.

Sincerely,

D. Wayne Hedberg
Permit Supervisor
