RE: Sunnyside Refuse and Slurry C/007/035
Storage Shed Replacement

Dear Daron:

Included are the C1 and C2 Forms and Plate 5-1 for the proposed changes to the existing storage shed. SCA would like to request approval to replace the existing metal storage shed with a wood framed storage shed. The new wood framed storage shed will be double in size, but will still fit on the existing cement pad.

There will be no change to the area of disturbance, no change to the drainage or hydrologic calculations, and no change to the reclamation plan. We believe the difference in demolition costs between the two sheds will be virtually the same. It appears that the existing Surface Facilities drawing 5-1 would not need to be updated to reflect this change. Currently the drawing shows a small rectangle shape depicting the existing pad that the storage shed sits on, and that would not change.

SCA believes this is more of a request for approval or a notification and not a request for a permit amendment. Should you have any questions, please contact Rusty Netz or myself at (435)888-4476.

Thank You,
